## CAUGHT IN A WAYSIDE

I thought I'd spend this night alone  
And it was all because of me  
I thought that you never ever look at me same again

I thought I'd lost you girl for good  
And that just tore me up inside  
There are many things that I just gotta say to you right now

**'Cause sometimes we all slip up  
And these times you're caught in a wayside  
Right now I just wanna hold you  
And tell you I'm sorry that I slipped up**

I thought this night would never end  
And guilt would fill me up inside  
I was waiting for that phone call that I never thought would come  
hold on

(repeat chorus)

I didn't mean you any pain  
Yes I slipped up - But now I'm begging you to stay  
We've both made our share of mistakes  
So girl what do you say?

(repeat chorus)
